

Prof. Dr. Günter Rote

Prof. Dr. Günter Rote
 Freie Universität Berlin
 Institut für Informatik
 Takustraße 9
 14195 Berlin, Germany
 Tel +49 30 838-75150 (-75103)
 Fax +49 30 838-75192
 E-Mail rote@inf.fu-berlin.de
 WWW <http://www.inf.fu-berlin.de/~rote/>

Career

1960 born in Klagenfurt, Austria
 1978–1988 university studies, technomathematics, Technische Universität Graz
 1985 Diplom-Ingenieur, TU Graz
 Diploma thesis: A systolic array algorithm for the algebraic path problem
 1985–1997 Universitätsassistent, TU Graz
 1988 Dr. techn. (Ph. D.), TU Graz
 Dissertation: Two solvable cases of the traveling salesman problem
 1988–1989 Wissenschaftlicher Assistent (C1), Freie Universität Berlin, in the group of Prof. E. Welzl
 1990 Visiting Assistant Professor, University of Waterloo, Canada, supported by an Erwin Schrödinger Fellowship
 1992 Habilitation in mathematics, TU Graz
 1997–1999 Außerordentlicher Universitätsprofessor, TU Graz
 since 1999 Professor for theoretical computer science, FU Berlin

Professional activities

1993–1999 Board member of the Austrian Operations Research Society (Österreichische Gesellschaft für Operations Research, ÖGOR), treasurer 1994–1999.
 2004 Program committee co-chair, 23th Annual Symposium on Computational Geometry, 2005, Pisa
 2006–2012 Member of the *Computational Geometry Steering Committee* (chair 2006–2009)
 2002–2004 Editor, *Computing*
 since 2007 Editor, *Computational Geometry, Theory and Applications*
 since 2010 Editor, *Discrete and Computational Geometry*
 since 2009 Editor-in-Chief, *Journal of Computational Geometry*

Selected invited lectures

- 1995 DMV-Tagung (annual meeting of the German mathematical society), invited survey lecture
- 2002 18th Annual Symposium on Computational Geometry, Barcelona, invited lecture
- 2003 Journées de géométrie algorithmique, survey lecture
- 2008 Intuitive Geometry, in memoriam László Fejes Tóth. Budapest, invited talk
- 2009 Algorithmic and Combinatorial Geometry, Budapest, invited talk
- 2010 Journées nationales d'informatique mathématique, Paris, invited plenary talk
- 2010 2nd Winter School on Computational Geometry, Amirkabir-University of Technology, Tehran, lecture series
